ECCONOLIFT[®]

Inexpensive Work Horse

Productivity & Reliability

Powerful Performance

EXPERTISE

Every Jitney Forklift is designed, built and supported by a team of dedicated and knowledgeable professionals, each with their own area of expertise. They all work together to deliver a forklift that is of superior quality both in design and function; Engineers, Product experts, ergonomists, and operators and mechanics all come together for one purpose – to bring our products out.

EFFICIENCY

Jitney Forklifts are manufactured using Six Sigma methodologies. Essentially, Six Sigma identifies and removes the causes of defects so as to minimize the "variability in manufacturing and business processes"

- Wikipedia: Six sigma

EXCELLENCE

At Jitney, a commitment to continuous improvement and innovation is a clear indicator of our level of performance and operational excellence. It comes from applying the same patience and diligence to everything we do – from seemingly small tasks to large scale projects and investments, it gives us the shortest path from the factory floor to customers' satisfaction.

Compact design for medium duty operation with a load capacity of 3300 lbs. Stable and economic, easy to move in confined spaces such as retail stores, small warehouses, trailers and factories.

Equipped with Curtis controllers for accurate smooth operation. Turtle speed functions moves slowly and smoothly to maneuver in tight spaces.

Maintenance free 210AH gel batteries.

Battery indicator, key switch and emergency off switch.

Built in charger

Without back guard model available

Emergency belly stop button and reverse

Turtle function feature

All Jitney Products meet and exceed ASME B56-1 and CSA B35 Standards.

MODEL	FBTA15	
Power Type	Electric	
Load Capacity	1500 kg	3300 lbs
Load Centre	600mm	23.6in
Tire	Polyurethane	
Driving Wheels	230mm x75mm	9in x 2.95in
Carrying Roller	85mm x 80mm	3.3in x 3.14in
Balance Wheel	125mm x 50mm	4.9in x 1.9in
Overall Dimensions without backrest L/W/H	1651mm x685mmx812mm	65in x27in x32in
Overall Dimensions with backrest L/W/H	1651mm x685mmx1143mm	65in x27in x45in
Lift Height	205mm	8.07in
Fork Size L x Wx H	1150mm x185mm x60mm	45in x7.28in x2.3in
Length to Face of Fork	1844mm/2216mm	72.5in/87.2in
Overall Width	773mm	30.4in
Overall Length	1651mm	65in
Overhead Guard Height	1143mm	45.19in

Suitable for:

- Warehouse
- Storage Facilities
- Retail Outlets
- Beverage Distribution
- Frozen Food Storage
- Pharmaceuticals
- Chemical Handling and Processing Facilities
- Distribution Centres
- Logistics
- Trailers and Trucking

Features:

- Mutil-Function control handle incorporates butterfly-style thumb controls, reversing switch and horn button for ease of use.
- All controls within finger tip operation for quick and easy operation.
- Large accessible emergency shut off switch.
- Battery level indicator.
- Turtle speed control function.

Built in charger unit
